

# Contract Newsletter

## \*\*\*STOP PRESS\*\*\*

For the next month (May) we have spare capacity on our machines. If you are planning any large orders, due to promotional campaigns or whatever, **now** is the time to place them. With adequate warning, we could turn them around in three weeks!

## SPECIAL OFFERS

Due to bulk purchasing, we are able to offer the following products, encapsulated and in tubs, ready for immediate despatch:

Saw Palmetto Extract capsules for prostate health, Cellulite Formula capsules, Protein Drink powders, Cat's Claw (herb and extract) capsules, Herbal Energy Formula capsules, Co Q10 capsules

## STATEMENT

With the current furore continuing over GMOs, we would like to assure our customers that we have taken steps to ensure the integrity of the products we manufacture. Our soya isolate, used in all our protein powders, comes from an Identity Preservation scheme. This means that non-GMO beans are planted and then every step is documented from field, through harvest, to packaging. This is verified by external auditors, just like in ISO9000 practices. The lecithin we use is free from GMO DNA. We constantly

[www.gandgvitamins.com](http://www.gandgvitamins.com)

check our suppliers and carry out audits to ensure that the products we use are of the highest quality.

## THE HOT LIST

Glucosamine is still very popular, we hold stock of the Sulphate and can obtain the other forms.

St. John's Wort, we hold stock of the herb and extracts, with guaranteed hypericin content.

Echinacea, very popular in the USA. We stock the three main species and extracts.

Antioxidants, we stock the usual Selenium, vitamins A, C, and E, also the newer plant-based antioxidants; Pycnogenol, Grape Seed Extract, Turmeric Extract, Bilberry Extract, Green Tea Extract and Red Wine Extract.

## STAFF

To further expand and improve our service to you, the following staff have joined our sales team: Joanne Bishop is now our Contract Sales Manageress. Jean Tyson who is a very experienced G & G

staff member is working on a project to re-establish the levels of quality and service, we are renowned for.

If there is anything you would like to see included in a future newsletter, let us know and we will do our best to include it.

## ACT NOW

The main news at the moment is MLX 249, the radical proposal put forward by the MCA. If passed by parliament, this would give the MCA carte blanche to 'label' a vitamin, mineral or herb as a medicine, whenever they felt like it.

You can do something about it. Write to your MP and get your friends and colleagues to do likewise. If you have a large customer base, draw up a petition and get them all to sign it. Send copies to your MP and the MCA. Our industry has already set a precedent with its resounding victory in the B6 debacle. It's time for a show of force again.

**If you are interested in adding any of these products to your range, contact our Contract Sales Department.**
